

Product Name :
Tensile Testing Machine

Product Code :
ALABS-A71-003

Description :

Tensile Testing Machine

Tensile Testing Machine for determining the tensile strength and elongation of materials like wires, cables conductors, plywood, ferrous & non-ferrous material.

Salient Features

- High accuracy of $\pm 1\%$
- Three measuring ranges for accurate testing.
- Simple in construction and control for easy operation and maintenance.
- Load and elongation recorders are provided where every necessary.
- A number of straining speeds are available for selection.

Available in the capacity Of 20 Kgf to 10000 Kgf
