

Product Name :
Analog Tensile Testing Machine

Product Code :
ALABS-A71-004

ALTEC™

Description :

Analog Tensile Testing Machine

-Variety of tests like Tension, Compression, Cross breaking / Bending, Shear, Linear Bonding / Gripping / Peeling strength of adhesives & tapes, etc. are conducted.

-Suitable for testing a wide range of materials like rubber, wood, plywood, plastic, rexins, ceramics, teflon, cardboard, latex, composites, ferrous metals, non-ferrous metals, etc. of various forms like round, flat, thread, wires, dumbbells, fabric, belts, strips, ropes, etc.

-Wide range of Grips, Attachments & Special fixtures are available to suit variety of material and shapes.

-Continuous roll autographic Load Vs Elongation recorder.

-Elongation scale with least count 1 mm.

-Three measuring ranges for accurate testing.

-A number of straining speeds are available for proper selection.

-Machine with AC or DC drive motor is available.

-Various Models – Maximum Capacity from 200 N to 50 kN.

-Loading accuracy well within $\pm 1\%$

-Hand operated cutting press with different sizes dies are available for cutting dumbbell specimen.
