

Product Name :
TIG Welding Machine**Product Code :**
TVETWD23002**Description :**

TIG Welding Machine

Technical Specification :

We are determined to provide a superior quality range of TIG Welding Machine with Harbor Freight to our esteemed clients.

We provide this machine in various types of models as per our client's requirements.

Our offered machine is manufactured at our state of the art manufacturing unit under the strict supervision of our skilled professionals using superior quality components and innovative technology.

This machine provides thermal overload protection with indicator light.

Clients can avail this machine as per their need at industry leading prices.

Suitable for X-Ray Quality Welding.

Available In 200 AMPS to 600 AMPS With Pulsing and Water Colling Facility.

The suitable machine for also minimum thickness 0.6 mm.

Feature:-

Multi-Process Power Source

Compact and portable

Power Saver

High Frequency

Excellence welding properties

High precision, easy Arc

Plug in anywhere

Safety protected
