

Product Name :
Plasma Cutting Machine**Product Code :**
TVETWD23006**Description :**

Plasma Cutting Machine

Technical Specification :

Educational Lab Equipments, Offered range is broadly used in various industries like automobile, heavy Engineering, construction, power & energy and all engineering industries, etc.

We have authorized automation distributor of Hypertherm to use and integrate Hypertherm Plasma Power source in our cutting machines.

Feature:-

Cuts mild steel, stainless steel plates and aluminum sheets with high precision.

High productivity and low operating costs.

Highly productive and cost-effective mode of cutting metal sheets and plates.

Integrate standard plasma, high speed and high-performance plasma power sources based on customer business requirement.

Max Cutting Length- 1000-2000 mm, 2000-3000 mm, 3000-4000 mm, >4000 mm

Max Cutting Width- 3000-4000 mm

Material of Construction- Stainless Steel

Max Cutting Speed- >4000 mm/min

Max Cutting Thickness- 30 mm
