

Product Name:

Bend Test Equipment

Product Code: TVETWD23008

Description:

Bend Test Equipment

Technical Specification:

One-step forming: this product bends specimen in one step during tests.

Effortless: requiring only one operator, who clicks the buttons to perform tests.

Safe: specimen bending directly into sealed test table, safe to operate.

Then applies side loads to form interference bend on the specimen to eliminate remaining deformation, accomplishing a bending angle of 180°.

Dust-proof: unique dust resistant unit protects ball screw from oxide coating.
Two-way hydraulic cylinder enables fast loading, unloading and withdrawing.
Equipped with waste collecting cart, reduces working effort.
Small footprint saves space for testing.
