Product Name :

Capacitive Load

Product Code :

ALABS-A237-008

Description :

Capacitive Load

Technical Specification :

Connected instar with safe discharging resistors. Ammeter and voltmeter are used to study the current and voltage at different loads. Housed in trolley typed M.S. Box with powder coated. Variable steps with the help of rotary switches in steps of 1 amp approx. 1 Phase capacitors load ISI marked of suitable rating.
