

Product Name :

CNC Router

Product Code :

EECAD60M0002

**Description :**

CNC Router

Technical Specification :**Specification:-**

- 12 Megabytes of Memory with unlimited file size
- 2 phase digital brushless, synchronous electric
- 25mm linear ball bearing profile rails for maximum stiffness
- AC servo system is optional
- All heavy steel gusseted plate frame construction
- Automatic Tool Calibration
- EZ Suite software
- High Speed 3-axis Motion Control
- motors are standard or Eclipse brushless

- MultiCam EZ Control User-friendly operator interface
- Standard Ethernet or RS232 direct connections
- transfer capabilities
