

Product Name :
Analytical Laboratory Balance**Product Code :**
EEFOD63M0001**Description :**

Analytical Laboratory Balance

Technical Specification :**Specification**

- Capacity of 220g
- Readability of 0.0001g,
- Display Type: digital display
- Power Supply: 220-240V, 50HZ
- complete with draught shield, transparent draft shield with sliding windows,
- fully automatic and temperature –controlled internal adjustments, internal calibration, large weighing platform, protective cover, overload protection, shows how much of the entire weighing range has been used,

- Internal rechargeable battery, with AC adapter, power cable, carrying case.

Features :

- Motorized Internal Calibration (Optional)
- Iso GIp Compliance (Optional)
- Real Time Clock (Rtc) (Optional)
- Multiple Weighing Units
- Standard Bi-Directional Rs-232 Interface
