

Product Name :

Constant Temperature Water Bath 230V/50Hz/Ph

Product Code :

EEHWL66M0006

**Description :**

Constant Temperature Water Bath 230V/50Hz/Ph

Technical Specification :

- Volume 40 liters
- stainless steel with built-in cooling coil
- Range up to 150°C
- Calibration to 0.01°C
- Bath liquid: Mineral oil, silicone oil or de-mineralized water

Description:-

These products are widely used in Refractory, Rotational Viscometer, Calorimetry for various constant temperature applications. Moreover, our range is also used in biotechnology laboratory for development of culture applications and other general laboratory activities.

Features:

- Uniformity: $\pm 0.1^{\circ}\text{C}$ at 37°C
- Stirring achieved by an efficient, continuously rated, self-cooling motor with SS shaft and propeller of anti-corrosive material
- Resolution: 0.1°C
- Independent over-temperature self-resetting safety cut-off coupled by an alarm
- Full SS construction optional
