

Product Name :
Asphalt Compactor

Product Code :
EEHWL66M0007

Description :

Asphalt Compactor

Technical Specification :

- With swing-over handle and the compact 24 x 17-3/4" contoured edge plate
- Vibration isolators between the welded steel plate and the engine
- Single direction plate travels up to 82 feet per minute
- Powerful: 212cc engine, producing 4,496lbs of force at 5,400 blows per minute
- Easily transportable with lift handles at the plate, as well as central lifting/load bar
- Construction Zone Plate Compactor, Vibratory Asphalt/Soil Plate

Product Uses:-

Asphalt plate compactor for sale and latest design in plate compactors, suitable for sand, gravel, grit, granular materials in the areas of construction, civil or road engineering gardening. etc most of compaction work. Even brick paving compaction (with optional rubber mat). Hot and cold asphalt, when fitted with optional water sprinkler

system

Optional accessories:-

1. Trolley wheel provides ease with which the plate compactor can be transported
2. Rubber mat for brick paving compaction is available
3. Foldable handle for easy transportation and stock
4. Cast iron vibratory unit or aluminum vibratory unit.
5. Cast Iron plate or 65MN steel plate

Optional Engine:-

America B & S 5.0HP /6.5HP Gasoline engine
Japanese Subaru EX17 6.0HP Gasoline engine
America Kohler CH260 6.0HP Gasoline engine

Product Description:-

7 Type of cooling system
Air cooled, single cylinder, 4-stroke

2.0 Maximal force
2.0kN

30 Compaction depth
30cm

500 Max. plate
500x400mm

550 Vibration Frequency
550vpm

40 Vibration Speed
40vpm

620 Size of by
620mm

90 Weight
90kg/180kgs

850 Size of plate
850*520*30mm
