

Product Name :

Compressor

Product Code :

EEMTL71M0008

**Description :**

Compressor

Technical Specification :

- Tank Capacity: 50Litres
- Pressure :10 bar
- Lubrication Style: Oil-free
- Voltage: 240V, 50Hz

1: Positive Displacement Type

A) Reciprocating Air Compressors

a) Single Stage Air Compressor

b) Multi Stage Air Compressors

c) Integral Gas Engine Air Compressors

B) Rotary Air Compressors

a) Single Lobe Air Compressors

b) Helical Lobe or Screw Air Compressors

2: Dynamic Displacement Type

A) Radial Flow or Centrifugal Air Compressors

- a) Single Stage Air Compressors
- b) Multi stage Air Compressors
- c) Horizontal Split
- d) Vertical Split
- B) Axial Flow Type
- a) Multi Stage
- b) Fixed Stator
- c) Vanes Variable
- 3: Thermal Type
- A) Ejectors
- a) Single Stage
- b) Multi Stage

Applications of Air Compressors:

- a) Air Compressors are used to Fill gases or to fill air in ballons.
- b) To Supply high pressure compressed air to run pneumatic tools.
- c) To supply high pressure compressed air to run pneumatic conveyor system.
- d) To fill air in tubes for Vehicles.
