

Product Name :
Plasma Cutting Machine**Product Code :**
EEMTL71M0024**Description :**

Plasma Cutting Machine

Technical Specification :

These superior quality Air Plasma Cutting Machine are suitable for cutting different types of ferrous and non-ferrous metals with the help of an economical shop floor gas (compressed air). Our range of machines is widely used on profile cutting machine or can be used by normal hand operation. We customize our products to suit the changing requirements of the clients.

Description:-

Air Compressor Specs.

CFM / LPM : 10/283

Bar : 9

Motor Hp : 3

Cylinder : Twin

Cutting Capacity (SS/MS)

Clean Cut (mm) : 6

Parting Cut (mm) : 10

Torch Cooling Air : Duty Cycle %100

Dimension (mm)

Width : 255

Height : 410

Length : 450

Weight (Kg) : 19

Input Power

3 Phase / 50 Hz / 4 Wire

Input Volt : 380/415

Rated Input KVA : 4.8

Output Current DC (Amp): 30

Max. OCV Volt : 260

Plasma GasAirPressure: Kg/cm2 (Bar)6

Flow CFM / LPM : 2.5/70
