

Product Name :
Keithley Nanovolt Meter

Product Code :
EEMSL72M0001

Description :

Keithley Nanovolt Meter

Technical Specification :

- Dual-channel Nano voltmeter, Range : 1nV - 100V
- Make low noise measurements at high speeds, typically just 15nV p-p noise at 1s response time, 40nV - 50nV p-p noise at 60ms
- Averages multiple readings for greater noise reduction
- Built-in thermocouple linearization and cold junction compensation
