

Product Name :
25KN Tensile Indentation And Compression Machine**Product Code :**
EEMEC73M0001**Description :**

25KN Tensile Indentation And Compression Machine

Technical Specification :

- High accuracy grade 0.5 load cell
- Machine control windows software package
- Integral Touch Screen Panel PC with interactive machine control panel
- Integral Touch Screen Panel PC with interactive machine control panel
- Strain gauge extensometer for metals & rigid plastics
- Compression platens 150mm square, 25kN
- Variable span 3 point bend fixture 50 - 300mm
