

Product Name :
Hydraulic Portable Trainer**Product Code :**
EEMRL74M0001**Description :**

Hydraulic Portable Trainer

Technical Specification :

- Trainees get familiar with the principles and applications of various oil pressure components.
- Trainees learn oil-pressure loop design.
- Trainees learn PLC programming, including architecture, instructions and ladder diagram.

Description : -

It is well known that "Factory Automation" is an indispensable measure to reduce labor cost, improve production efficiency and achieve higher product quality, which is widely adopted by electronic, semiconductor, LCD and mechanical factories. In factory automation, oil pressuring plays a very essential and critical role.

The Hydraulic Training System is launched to offer enriched education from basic oil pressure components, advanced oil-pressure loop design to PLC-based electrical control system. The trainee can be upgraded to high-level automation engineer with the help of the trainer system.
