Surgical Instruments, Delivery, Set

Technical Specification :

This set should be considered part of any minimal investment in a health facility with obstetrical activities. A fully functional obstetrical environment as well as a professional midwife must be available.

For suturing the episiotomy, use: SET, SUTURE.

The set contains two Kocher forceps to clamp the umbilical cord (time needed to tie up), and a pair of "episiotomy scissors" and a pair of scissors to cut the umbilical cord. Most of episiotomies are performed at the last moment, so the set must always be available and ready for use.

Scissors, Mayo, 140mm, cvd, b/b

Scissors, gyneco, 200mm, cvd, b/b

Forceps, artery, Kocher, 140mm, str
