Surgical Instruments, Delivery, Set

Technical Specification :

This set should be considered part of any minimal investment in a health facility with obstetrical activities. A fully functional obstetrical environment as well as a professional midwife must be available.

For suturing the episiotomy, use: SET, SUTURE.

The set contains two Kocher forceps to clamp the umbilical cord (time needed to tie up), and a pair of "episiotomy scissors" and a pair of scissors to cut the umbilical cord. Most of episiotomies are performed at the last moment, so the set must always be available and ready for use.

Scissors,Mayo,140mm,cvd,b/b

Scissors,gyneco,200mm,cvd,b/b

Forceps,artery,Kocher,140mm,str
