

Product Name :
Celestial Star Globe**Product Code :**
GEGH0016**Description :**

Celestial Star Globe

Technical Specification :

This unique 12" diameter globe clearly and simply demonstrates the apparent relationship between Earth and the stars, planets, galaxies and other celestial objects in the universe.

Study the stars with your own planetarium.

Globe can be set to reflect constellation position according to time and place to show the actual positions of the stars.

Celestial Star Globe (left).

Globe has been printed on the inside so that a crayon may be used to mark positions of the planets or the moon. Includes a detailed study guide.
