

Product Name :
Wide Wheel Abrasion Testing Machine

Product Code :
AGCL0005

ALTEC™

Description :

Wide Wheel Abrasion Testing Machine

Technical Specification :

The machine is equipped with a digital counter which stops the machine at the end of a preset number of revolutions.

The abrasion wheel is 70 mm thick and rotates at a speed of 75 rpm. Abrasion Testing Machine is designed for determining the resistance to abrasion/wear of natural stones and concrete products used for paving.

Narrow Wheel Abrasion Testing Machine is designed for determining the resistance to abrasion of unglazed tiles, grouts used for tiles and clay pavers.

The abrasion wheel is 10 mm thick. Abrasive corundum sand, calibration marble.
