

Product Name :
Specific Gravity And Water Absorption of Aggregates**Product Code :**
AGCL0011ALTEC™**Description :**

Specific Gravity And Water Absorption of Aggregates

Technical Specification :

A mechanical lifting device is used to raise the water tank through the frame height immersing the specimen suspended below the balance.

The buoyancy balance system developed consists of a rigid support frame, incorporating a water tank mounted on a platform.

The balance supplied may also be used as a standard weighing device, thus providing a versatile and comprehensive weighing system in the laboratory. 6000 g x 0.1 g supplied with frame, water tank and suspension hook.
