

Product Name :

Damper Kit

Product Code :

ALABS-A110-015

ALTEC™**Description :**

Damper Kit

Technical Specification :

- This simple piston disc and cylinder form a dashpot damper that fits to the Test Frame under the beam.
- It works with easily found non-toxic fluids (not supplied) for different damping levels.
- Students may try their own fluids and their own piston discs for project work.
