| Product Name : Modular Power System | Product Code : ELPS0003 |
| ALTE | C TM |
| Description : | |
| Modular Power System | |
| Technical Specification : | |
| It is needed to connect two or more of the modules together. | |
| • When connected to a suitable mains supply, the hub provides power for each part of the Modular Power System. | |
| • It also links the electrical test circuits so students do not need to use long test leads between modules. | |
| • The hub links the emergency stop buttons of each connected module to give better safety in the laboratory. | |
| One setting stops the power to only the affected module of the Modular Power System, leaving the others still powered. | |
| • The emergency stop setting switch is a keyswitch to prevent unauthorised use. | |

• The other setting stops the power to all modules of the Modular Power System.
