Product Name : Meter Flume	Product Code : ALABS-A43-115	
	LTEC	
Description :		
Meter Flume		
Technical Specification :		
<ul> <li>A 300 mm wide 5 to 15 m long flume for student study and advanced research into a wide range of fluid flow topics.</li> </ul>		
A huge range of ancillaries is available to extend learning potential.		
• The flumes have pressure measurement tappings at 0.25 metre intervals along the working section.		
• These tappings can connect either to a multi-tube manometer or to a 32-way pressure display.		
• The flumes have a built-in re-circulating wat	The flumes have a built-in re-circulating water supply connected to a digital flow metre for accurate	

measurements during experimentation.
