

**Product Name :**  
Soil Extruder, Motor Operated**Product Code :**  
CVLE0076**Description :**

Soil Extruder, Motor Operated

**Technical Specification :**

- Largest capacities available on the market (ram stroke 900 mm), and due to the large number of standard adaptors, is considered the most versatile extruder.
- A lever controls the extruding speed and the hydraulic valve for the extrusion or return movement.
- It can also be stopped at any point in its travel to enable extrusion into small smaller sample tubes or to take smaller size specimens.
- Both the hydraulic cylinder assembly and the receiving table can easily be lowered alongside the machine to save space when not in use.
- Sampling tubes are held in place by an adjustable "V" shape bearing which can extrude either in the vertical or horizontal position.
- The machine is supplied without tube adaptors which have to be ordered separately.
- Power: 750 W
- Max. load: 60 kN
- Max. ram stroke: 900 mm

- Weight approx.: 160 kg
- Max. working ram speed: 6 mm/sec.
- Max. external diameter of sample tubes: 160 mm
- Horizontal working position(lxwxh): 2730x409x1180 mm
- Vertical working position (lxwxh): 1025x409x1080 mm without accessories
