

Product Name :
Kinematic Viscometer Bath**Product Code :**
CELB0015ALTEC™**Description :**

Kinematic Viscometer Bath

Technical Specification :

- Intelligent signal sampling for accurate data measuring and parameter reading.
- Accurate viscometer for improving experimental efficiency.
- For controlling the temperature accuracy.
- High precision digital display.
- Electric stirrer for ensuring uniform temperature of bath.
- Easy cleaning and drying of viscometer tubes.
- Durable glass bath for optimum heat preservation.
- Desktop based all-in-one design for easy operations and portability.
