

**Product Name :**  
Digital Point Load Test Apparatus**Product Code :**  
CELB0029ALTEC™**Description :**

Digital Point Load Test Apparatus

**Technical Specification :**

- Digital Point Load Test Apparatus consists of a 60 kN capacity load frame with a hydraulic loading ram driven by a hand pump.
- A ruler assembled on the frame allows the direct measurement of the distance between the conical platens before and after the test.
- The frame is adjustable for testing of samples up to 102mm diameter.
- The compression load is measured by a pressure transducer connected to an advanced digital display unit assuring the best accuracy and resistance to the failure shocks.
- Load range : 0 – 60 kn
- Digital display : 2 x 16 characters
- Resolution : 32.000 div.
- Accuracy :  $\pm 1\%$
- Load pacer included.

- Load measurement in both kn and mpa.
- Serial port for pc connection.
