Bedside Cabinet Standard

Technical Specification :

Lower part: storage compartment with one fixed shelf, closed with door

Upper part: drawer, lockable with key

Movable basic patient bedside cabinet

Mounted on 4 swivel castors, of which two with brake

Key is unique for each single cabinet, key-bow folds away from key-blade avoiding breakage when inside lock

Drawers and cabinet have recessed finger grip-hold, leaving front entirely flat

One side rail handle allows for easy repositioning

Both castors with brake are mounted at the push-bar handle side

High resistance to corrosion (tropical environment).

Top has smooth finishing allowing for easy cleaning.

Caster frame/bracket: nylon.

Better: caster wheel: single or double wheels, mold-on type, non-hooded (for easy maintenance)

Frame, side panels, base, top, door and shelf: epoxy coated plate steel.

Caster brake: total-lock type (wheel and rotational lock).

Frame, drawer, door and panels: 1-1.2mm thickness

Door, opening angle: 120-150 degree

Cabinet, overall: 40-43 x 40-43 x 79-86cm (l x w x h)

Carrying capacity: 30-35 kg

Swivel castor wheel: 2-4.5 x 5-7.5 cm (w x diameter)
