

Product Name :
MIG Welding Machine**Product Code :**
EEMECH45M0026**Description :**

MIG Welding Machine

Technical Specification :

- STEP type voltage control.
- Rugged and robust design.
- No breakdown.
- Minimum maintenance.
- Low running cost.
- Burn back facility.
- 100% copper winding.
- Phase: 3
- Supply voltage : 380-440 V
- Open circuit voltage: 18 - 58 V
- Welding current range: 50 - 600 A

- Welding current at 60% Duty Cycle: 250 A - 600 A
- Class of insulation H Permissible wire dia (mm): 0.8 - 1.6
