

Product Name :
Muffle Furnace**Product Code :**
EEMECH45M0036**Description :**

Muffle Furnace

Technical Specification :

- Programmable temperature controller.
- Rugged construction for long run.
- Fitted with safety devices.
- Uniform heating rate.
- Max temperature: 1100°C, 1400°C
- Continuous operating temp.: 1000°C, 1300°C
- Heating wire: Silicon carbide (Sic) rods
- Thermocouple: K Type, R Type
- Exterior MOC: Mild steel powder coated
- Insulation: Ceramic fiber blanket
- Temperature controller: PID controller with SCR power control

- Chamber MOC: Ceramic fiber board, Ceramic Zirconium board
- Power supply: 220 Volts 50Hz, 3 Phase 440 Volts 50Hz
- 300 x 300 x 457mm, 42 liters volume
- 300 x 300 x 609 mm, 56 liters volume
