

Product Name :
Cut Model Of Planetary Gear System

Product Code :
EEMECH45M0076

ALTEC™

Description :

Cut Model Of Planetary Gear System

Technical Specification :

- The cutaway models represent original components in which the active parts are clearly visible to the user while fully maintaining their mechanical functionality.
- The planetary gear is a special type of gear drive, in which the multiple planet gears revolve around a centrally arranged sun gear.
- The planet gears are mounted on a planet carrier and engage positively in an internally toothed ring gear.
- Torque and power are distributed among several planet gears.
- Each of the cutaway models is securely mounted on a base plate.
- Sun gear, planet carrier and ring gear may either be driving, driven or fixed.
- Planetary gears are used in automotive construction and shipbuilding.
- Which also has handles to allow them to be carried. They are powered by hand.
- Dimension: 450 x 400 x 300 mm (approx)
- Weight: 10kg(approx)
