

Product Name :
Steam Engine Model**Product Code :**
EEMECH45M0079ALTEC™**Description :**

Steam Engine Model

Technical Specification :

- Steam engine model ideal for classroom demonstrations
- Cross-sectioned cylinder to show internal operation
- Working parts – piston, slide valve both move and the link motion and reversing method operate.
- This cutaway model is carefully sectioned for training purposes, professionally painted with different colours to better differentiate the various parts, cross-sections, lubricating circuits, fuel system, cooling system etc.
- Many parts have been chromium-plated and galvanized for a longer life.
- Dimension: 450 x 350 x 300 mm (approx)
- Weight: 9 kg (approx)
- This model shows the internal structure and operating principles of a working steam engine.
- The metal cylinder is cross-section cut and is covered with a clear plate to show movement of the piston inside the cylinder.
- Complete with working parts: the piston, slide valve both move and the link motion and reversing method can

be observed.

- The movement of the wheel is light enough to demonstrate even by blowing air.
