

Product Name :
Whirling of Shaft Apparatus

Product Code :
EEMECH45M0095

ALTEC™

Description :

Whirling of Shaft Apparatus

Technical Specification :

- 6 rotor shafts made of high-strength steel.
- Mode shapes of continuous rotor shafts.
- Variation of bearing spacing and shaft diameter.
- Transparent protective cover enables the experiment to be optimally observed.
- Motor: adjustable speed, digitally display, adjustment with potentiometers, 2 rotational speeds can be preselected.
- Rotor shafts made of steel
- Diameter: 3mm, 6mm, 7mm
- Length: 600mm, 900mm
- Diameter: 80mm
- Weight: 1kg

- Motor Power: 0,37kW
- Speed: 0...6000min-1
- Dimension: 1400 x 600 x 800 mm
- Weight: 85kg
- 230V, 50Hz, 1 phase
- 230V, 60Hz, 1 phase; 120V, 60Hz, 1 phase
