

Product Name :

Cut Section Model Of Rotary Hermetic Compressor

Product Code :

EEMECH45M0100

ALTEC™**Description :**

Cut Section Model Of Rotary Hermetic Compressor

Technical Specification :

- It consists of a stationary cylinder, a roller and a shaft.
- The shaft has an eccentric on which the roller is mounted.
- A blade is set into the slot of a cylinder in such a manner that it always maintains contacts with a slotter by means of a spring.
- The blade moves in and out of the slot to follow the rotor when it rotates.
- The blade separates the suction and discharge parts, therefore it is often called a sealing blade.
- When the shaft rotates, the roller also rotates the roller rotates so that it always touches the cylinder wall.
- Dimension: 500 x 400 x 500 mm (approx)
- Weight: 35 kg (approx)
