

Product Name :
Efficiency in Heating Technology**Product Code :**
RCTE0002**Description :**

Efficiency in Heating Technology

Technical Specification :

Basic principles of energy efficient heating technology with a computer-supported learning process

Features

- trainer with closed heating circuit
- trainer on mobile frame
- pumps, heater and convactor fan, controlled via PC Learning objectives/experiments
- familiarisation with a heating circuit
- familiarisation with temperature control
- two-point controller
- PID controller
