

Product Name :
Drinking Water Installation Demonstrator**Product Code :**
THML0002**Description :**

Drinking Water Installation Demonstrator

Technical Specification :

- trainer with all components common in a drinking water installation
- designed for training in the plumbing sector Learning objectives/experiments
- function and operation of components
- water meter
- pressure reducing valve with and without reversible flow filter -
- backflow preventer / system separator
- system of safety devices
- pressure vessel with heater
- circulating pump
- thermal discharge safety device
