

Product Name :
Electro Manipulator Trainer**Product Code :**
MCHT0007**Description :**

Electro Manipulator Trainer

Technical Specification :

This trainer takes various kinds of industrial sensor, pneumatic controller, electrical switch, PLC, HMI etc., it is a comprehensive mechatronics platform which consist of warehouse unit, handling mechanical arm(manipulator) unit, movement control PLC module, touch screen unit etc. Through related experiment, students will be familiar with pneumatic execute mechanism running feature,
