

**Product Name :**  
4 Layers Transparent Elevator Trainer**Product Code :**  
MCHT0014**Description :**

4 Layers Transparent Elevator Trainer

**Technical Specification :**

Transparent elevator mechanical and electrical integration of teaching training device is requires research and development, which combines PLC, frequency conversion adjustment, sensor detection, position control, complex organic combination switch quantity control, temporal logic control device in the integration of teaching. Can satisfy the programmable control technology,
