

Product Name:

Robotized Station(6 DOF Robot Trainer)

Product Code:

MCHT0034

Description:

Robotized Station(6 DOF Robot Trainer)

Technical Specification:

Picture is only for reference, use Chinese 6 DOF robot

The device adopts an operating platform constructed of industrial aluminum profiles, which has good stability and easy assembly. The robot adopts a multi-joint six-degree-of-freedom robotic arm that can perform motion control in any direction, driven by servo motors and stepper motors, and driven by harmonic reducers , Stable operation and high accuracy.

Technical parameters: Single-phase three-wire AC220V input, power less than or equal to 2KW, dimensions 1500 * 750 * 1700mm
