

Product Name :
6 DOF Robot Training Bench With 3 Kg Load**Product Code :**
MCHT0035**Description :**

6 DOF Robot Training Bench With 3 Kg Load

Technical Specification :

- Robot structure
- Robot function analysis
- Displacement technology and motion analysis
- Operational software analysis (replacement algorithm, self-forming...)
- Robotic equipment in industrial environments
- Electrical operation of the robot
- Program and control the station via software via PC, which can track the displacement of the robot, coordinate extraction and detection of working areas and singular points
