

Product Name :
Instrumentation and Process Control (pH and conductivity)**Product Code :**
EEPLC78P0008**Description :**

Instrumentation and Process Control (pH and conductivity)

Technical Specification :

This training device includes modules such as pumps, tanks, sensors, instruments, and PLC. Through relevant experiments, you can be familiar with process control principles and operating methods, and develop students' corresponding knowledge and skills. It is suitable for higher vocational, vocational, and secondary vocational schools and Assessment of teaching and skills training of related majors in technical schools.

1.2 Features

- (1) The training device adopts an aluminum profile frame structure, which is safe and convenient to use and not easy to be damaged.
- (2) Various sensors are equipped to complete the training content of various courses.
- (3) The device has a good safety protection system.
