

**Product Name :**  
Trainer For Water Condensing Units

**Product Code :**  
RCTE0011

**Description :**

Trainer For Water Condensing Units

**Technical Specification :**

This trainer is designed to study working principle and operation of heat pump air conditioning system with cooling tower, in-depth study working principle and usage of cooling tower. It can conduct data acquisition by proper instrument and sensor, and it can analysis character of heat pump air conditioner with cooling tower according to experiment data.
