

Product Name :
Trainer For The Study Of The Semi Hermetic Compressor

Product Code :
RCTE0019

Description :

Trainer For The Study Of The Semi Hermetic Compressor

Technical Specification :

The training device is used for the study of semi-hermetic compressor running features, students can understand the appearance of the open type compressor through the training device, operation mode, the refrigeration effect, etc. Semi-hermetic compressor is controlled by inverter, compressor rotation speed can be adjusted. It's suitable for skill appraisal, evaluation work, higher vocational colleges, vocational schools cooling technology, and household refrigeration equipment principle and maintenance and refrigeration equipment repair and so on teaching practice.
