

**Product Name :**  
Apparatus for Studying free and Forced Vortex Flows

**Product Code :**  
FUDE0053

**Description :**

Apparatus for Studying free and Forced Vortex Flows

**Technical Specification :**

Textbook: Teaching Instruments for Free and Forced Eddy Current Research

Teaching device to visualize and study vortex phenomena or free and forced vortex phenomena. The device comes with a drive motor and related instruments,

Included is a complete hands-on instruction manual (TP).

Educational property

The teaching equipment can perform the following practical exercises:

- Determine the contour of the forced vortex surface
- Determine the surface contour of the free vortex
- Determine the total pressure in the forced vortex
- Comparison of results with theoretical predictions

Included is a complete hands-on instruction manual (TP).

Study of free tours and power installations
