

Product Name :
MkII Pipe Networks

Product Code :
FUDE0060

Description :

MkII Pipe Networks

Technical Specification :

This free-standing accessory to the F1-10 Hydraulics Bench demonstrates the characteristics of flow through different arrangements of pipes and the effect of changes in pipe diameter on the flow through a particular network.

The permanent arrangement of PVC pipes and fittings is mounted on a free-standing support frame designed to stand alongside an F1-10 Hydraulics Bench in use. Connection to the F1-10 is via a reinforced flexible tube and threaded union with 'O' ring seal, enabling connection to the F1-10 without the use of tools.

Isolating valves enable a wide range of different series, parallel and mixed pipe configurations to be created without draining the system. Flow into the network and flow out from the network at each outlet can be individually varied to change the characteristics of the system.
