# Product Name :ProduTrainer Tubular Heat ExchangerTHML(

#### Product Code : THML0020

#### **Description :**

Trainer Tubular Heat Exchanger

#### **Technical Specification :**

Using the trainer, the

characteristic properties of heat transfer in pipe flows can be demonstrated. The heat transfer takes place in a coaxial tubular heat exchanger. The hot water is fed through the inner tube.

Using the trainer both parallel flow and counterflow operation with their different temperature profiles can be demonstrated.
