

Product Name :
Chemical Paint Developing Machine**Product Code :**
PCBL0008**Description :**

Chemical Paint Developing Machine

Technical Specification :

This develop machine is mini laboratory use machine. It is for copper plate or print laboratory quickly develop sample and manufacture. Inner with anti-etching pump, make etching liquid double sides spray to sample two sides, etching PCB sensitive layer. Inner immersion program heater, heating developing liquid to develop temperature. With clock preset develop time.
