

Product Name :
PCB Exposer Etching Developing**Product Code :**
PCBL0019**Description :**

PCB Exposer Etching Developing

Technical Specification :

1. Vacuum dual exposure
 2. Imaging function
 3. Circuit board corrosion function
 4. Circuit board via hole function
- 1.It uses environment protection transparent material, students can see the whole process for go through holes.
- 2.Drawer type exposure function, it has vacuum sucker function, time control function, image function is made of transparent material.

Address: 75, Lajpat Nagar-IV, New Delhi-110024 **Phone:** +91-9311469084
