

Product Name :
Proportional Hydraulics Training Set

Product Code :
HYDT0006

Description :

Proportional Hydraulics Training Set

Technical Specification :

The electro-hydraulic proportional hydraulic workbench is designed according to "Hydraulic drive and control", "Hydraulic proportional control technology", "Hydraulic servodrive and control" and other hydraulic teaching materials of institutions of higher learning and higher vocational training school. The workbench can fully meet requirements of teaching, students' practicing and training, and scientific research aiding, the hydraulic proportional teaching workbench is specially designed from basic to advanced, from teaching to scientific research.
