

Product Name :
Photovoltaic Training Bench**Product Code :**
RENV0019**Description :**

Photovoltaic Training Bench

Technical Specification :

The training system can simulate the process of solar power generation, so that students have a preliminary intuitive understanding of the solar power system. The solar panels are driven by high-intensity LED lights. Through relevant experiments, students' knowledge and skills are cultivated, which is suitable for the teaching and skills training assessment of higher vocational colleges, higher vocational schools, secondary vocational schools and technical schools.
