

Product Name :
Solar Power Generation Experiment Box

Product Code :
RENV0020

Description :

Solar Power Generation Experiment Box

Technical Specification :

This product is used to study solar properties in depth and to perform supporting experiments. It consists of a training model and a test box. The training model consists of a monocrystalline silicon solar panel and an simulation light source. All units are modular and open for easy and clear operation. It is convenient for students to conduct various tests related to solar energy.
